

17 MARCH 2016, BRUSSELS

HIGH-LEVEL CONFERENCE
**EU ENERGY COOPERATION
WITH THE EASTERN NEIGHBOURHOOD
AND CENTRAL ASIA**

Celebrating the 20 years of the INOGATE Programme
and preparing for the new stage

“Energy labelling and ecodesign: key tools of raising awareness of consumers and energy efficiency”

Ukraine

Pavlo Ladetsky,

Head of Division on Energy Management and Standardisation,
State Agency on Energy Efficiency and Energy Saving

Topic 2. Increasing opportunities of consumers through raising awareness on efficient use of energy

Ukrainian government bodies responsible for EE and RES

**Ministry of Regional Development, Construction and Housing of Ukraine
(Minregion) –**

ensures the development of the state policy in the area of EE and RES

State Agency on Energy Efficiency and Energy Saving of Ukraine (SAEE) –

implements the state policy in the area of EE and RES

Cooperation with INOGATE : June 2015 to January 2016 (CWP.08/12.UA)

- Introduction of EU energy labelling and ecodesign into the legislation of Ukraine
- Support of the VII International Investment Business Forum on EE and RES

Planning of works on Introduction of energy labelling and ecodesign in Ukraine

Action Plan on implementation of Association agreement between the EU and Ukraine
(Government Resolution # 847-p of September 17, 2014)

Implementation plan of certain EU legislative acts on Ecodesign (Government Resolution # 475-p of May 14, 2015)

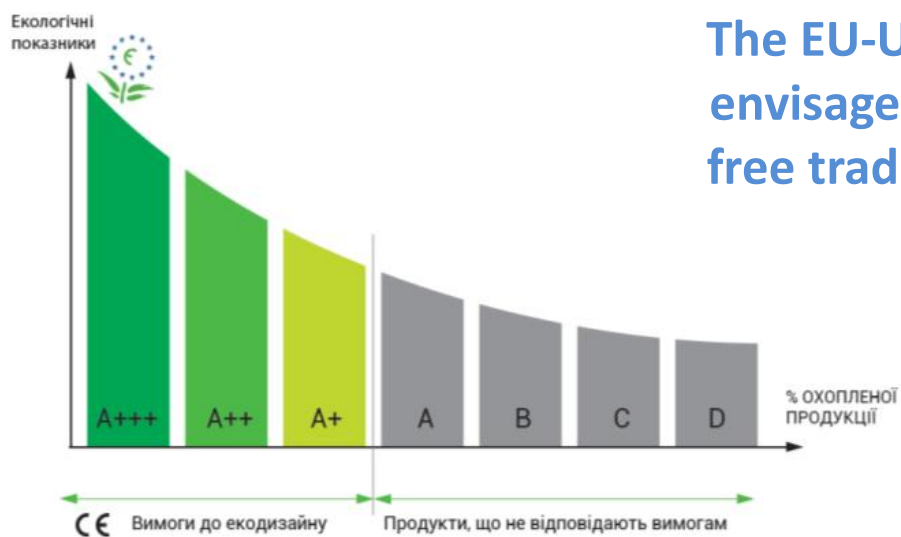

Implementation plan of certain EU legislative acts on Energy Labelling
(Government Resolution # 499-p of May 20, 2015)

Development strategy of the technical regulation system up to 2020
(Government Resolution #844-p of August 19, 2015)
Includes a full list of EU regulations on ecodesign and energy labelling

Outcomes and Plans of works on Introduction of energy labelling and ecodesign

The EU-Ukraine Association Agreement envisages creation of a deep and comprehensive free trade area (DCFTA)

Ecodesign and energy labelling are DCFTA elements

2013-2015 (achieved):

- Introduction of energy labelling Directive
- Introduction of Regulations on energy labelling for
 - Refrigerators; Washing machines
 - Lamps and luminaries; Dishwashers

2016-2017 (plans):

- Transposition of EU Ecodesign Directive into the national legislation
- Introduction of ecodesign regulations
- Introduction of energy labelling regulations

Assistance of INOGATE in implementation of the EU acts on energy labelling and ecodesign

- Improvement of 5 draft technical regulations on energy labelling
- Translation of current technical regulations on energy labelling for official evaluation by the EC
- Assistance to the Agency in drafting a legal document transposing EU Directive 2009/125/EC on ecodesign
- Assistance to the Agency in transposition of EC Regulations on ecodesign into Ukrainian legislation: priority, structure and content
- Translation of 10 EC Regulations on ecodesign for different energy-related products
- Preparation of the list of European harmonised standards for introduction of energy labelling and ecodesign in Ukraine
- Assistance to the Agency in organisation of the VII International Investment Business Forum on EE and RES
- Raising of awareness on energy labelling and ecodesign

Outcomes of introduction of technical regulations on energy labelling and ecodesign with the assistance of INOGATE

Introduction of ecodesign requirements in Ukraine – November 2017

- Fulfillment of the requirements of the EU-Ukraine Association Agreement
- Increasing energy independence of the country
- Raising awareness among population
- Reducing customers' energy bills
- Reducing environmental impact

E.g.: energy labelling and ecodesign in the EU:

- *19% savings as compared with conventional energy consumption regime*
- *Half of target EE indicator of 20% by 2020*
- *Reducing dependency on energy import by 23% for natural gas and by 37% for coal*
- *Savings of 100 billion euros for end consumers by reducing energy bills by 2020*

THANK YOU!

Pavel Ladetsky

Head of Energy Management and Standardisation Division
