Outline

- Objectives of Component D
- Overview of ITS Actions
- Proposed Scope of Work
- Energy Statistics Action Plans (ESAPs)
- Success Indicators
Objectives of Component D: Support to Statistical Cooperation

- To increase capacity of NSIs etc. to produce & disseminate consistent energy statistics, balances & indicators
- To harmonise standards & methodologies for energy statistics & balances in line with international norms
- To increase use of statistics in energy policy and decision making in the region
Overview of ITS Actions

**Regional/horizontal/common for all PCs:**
- workshops
- conferences
- study tours
- national meetings
- networking

**National/vertical/country specific for each PCs:**
- institutional and capacity building activities (ITS - Technical assistance) as specified in the ESAP
Proposed Scope of Work (1)

D1. Development & adoption of Energy Statistics Action Plans (ESAPs)
July 2012 – March 2013
Proposed Scope of Work (2)

D2. Awareness Raising:
Promotional materials, 3 conferences, national meetings
July 2012 – November 2014
D3. Institution & Capacity building: 2 workshops, 4 study tours, 21 technical assistance missions to PCs

September 2012 – December 2014
Proposed Scope of Work (4)

September 2012 – December 2014
Proposed Scope of Work: RESULTS

- Increased capacity of NSIs etc. to produce & disseminate consistent energy statistics, balances & indicators
- Harmonised standards & methodologies for energy statistics & balances with international norms
- Increased use of statistics in energy policy and decision making in the region
What is Energy Statistics Action Plan (ESAP)?

ESAP is a plan of integrated actions (2012 – 2014) aimed to harmonise energy statistics in PCs with international standards.
ESAP’s Goals

- to evaluate current status of energy statistics system in the PC
- to assess needed measures and actions
- to implement specific measures and actions with ITS support
ESAP’s main structure:

**Energy Statistics System Profile**
- Legal and institutional framework
- Energy profile
- Capacities and capabilities of NSI
- Review of methodologies, procedures & disseminated results

**Action Plan**
- Legal and institutional framework
- Energy data reporting system
- Energy balances compilation and reporting
- Monthly/quarterly energy data reporting
- Energy prices, energy indicators

**Needed resources**
- **Total**: technical assistances (TA), human resources
- **INOGATE support**: ITS TA (Actions), RA - regional activities

**Indicators for the monitoring of ESAP’s implementation**
ESAPs development in PCs

Identification of key stakeholders, inception missions *February – June 2012*

Development of ESAPs *July - November 2012*

Finalisation and adoption of ESAPs *December 2012- March 2013*
Success Indicators

- Adopted and implemented ESAPs
- Adopted international standards and harmonised energy statistics and balances
- National & regional energy strategies, policies & plans developed based on reliable and consistent energy statistics
Thank you for attention!

Gloria Aguinaldo
Key Expert, Energy Statistics
