SURVEY

ΟΠΡΟΣ
INOGATE

PROGRAMME FUNDED BY THE EU

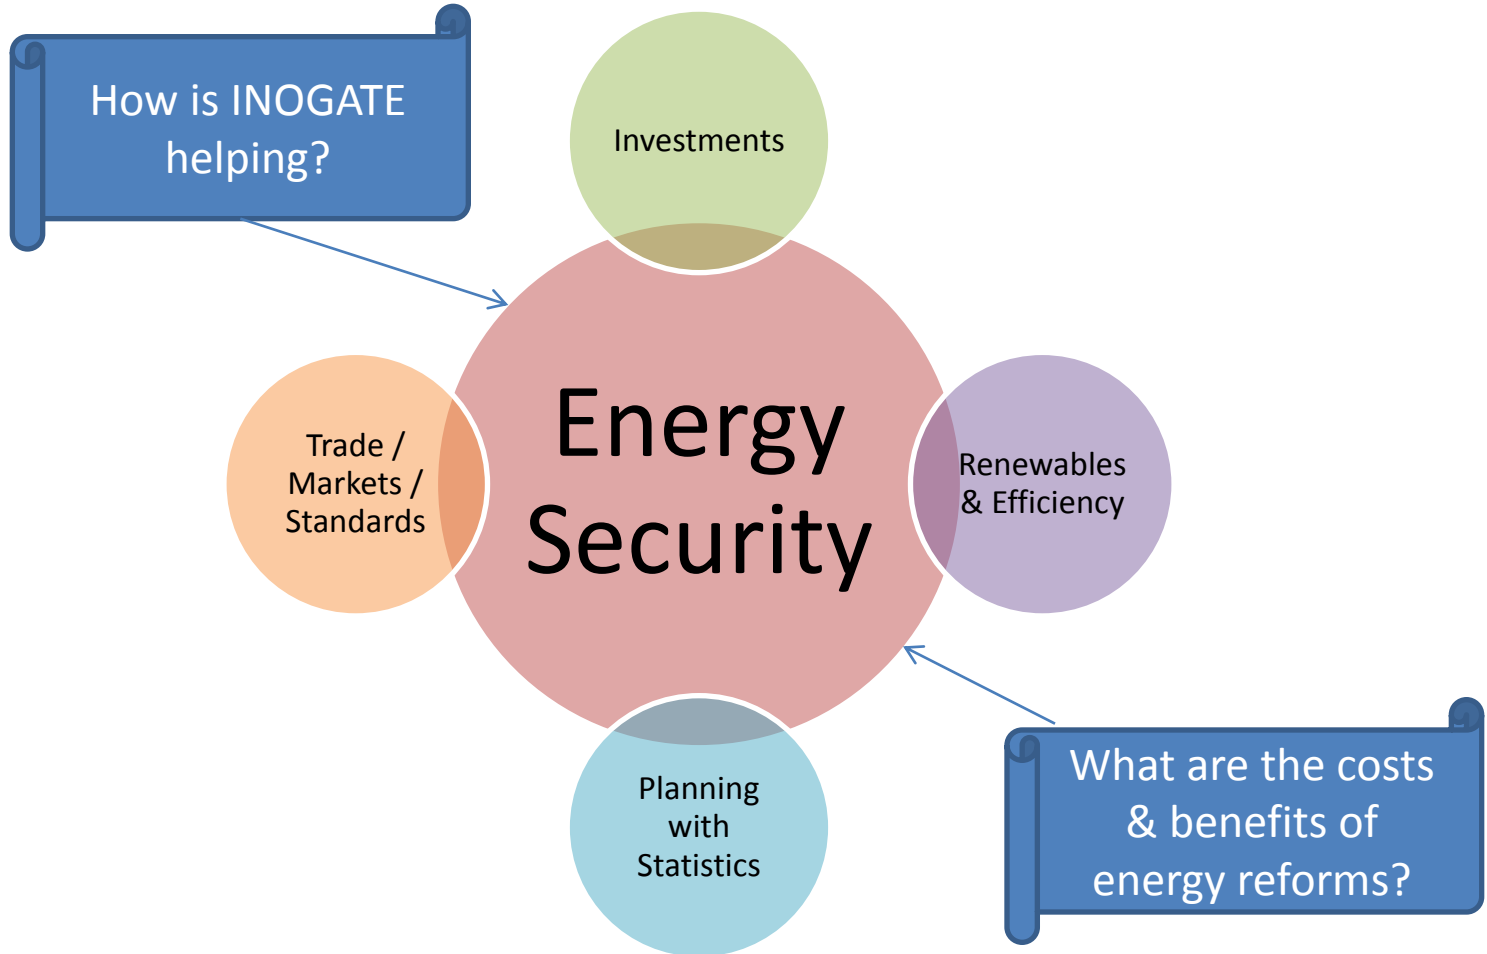

3 overriding communication objectives

1. Increasing awareness of INOGATE results and how they can be replicated and built upon
2. Increasing understanding of the costs and benefits of energy reforms
3. Increasing public awareness on sustainable energy issues in 6 ENP countries

The presentation focuses on (1) & (2).

INOGATE already on Facebook

<https://www.facebook.com/InogateTechnicalSecretariat>

A screenshot of a Mozilla Firefox browser window displaying the Facebook page for "INOGATE Technical Secretariat". The browser's address bar shows the URL "https://www.facebook.com/InogateTechnicalSecretariat". The page features a large cover photo of a wind turbine and a person with arms outstretched, with the INOGATE logo and "PROGRAMME FUNDED BY THE EU" text. The page name "INOGATE Technical Secretariat" is visible, along with "45 likes · 22 talking about this". The right sidebar shows a list of friends and a "Create Page" button. The bottom of the browser window shows the Windows taskbar with the date "25/11/2012" and time "17:10".

PROGRAMME FUNDED BY THE EU

Key stakeholders

- Ministries of Energy, of Natural Resources, of Industry and New Technologies,
- Transmission systems operators (TSO) for electricity and gas,
- National regulators,
- Ministries in charge of Finance,
- National and Regional Standardization Bodies,
- National Statistical Institutes
- National Construction Authorities,
- National Agency dealing with consumer protection,
- Civil Society organizations for consumer protection,
- National Associations and Unions for gas and electricity,
- R&D institutes,
- Energy Agencies,
- Energy Services Companies and Audit Centres
- Media

www.inogate.org

PROGRAMME FUNDED BY THE EU

Key insights

- Targeted, simplified and convincing messaging
- More work with media
- More joint organisation of events, campaigns with Partner Countries
- Need for systematic results collection

www.inogate.org

Vision – what do we want in the end...

- We want Georgia see INOGATE as a very useful programme because it has facilitated energy security through:
 - increased investments, e.g. EE & RES
 - helped pave the way for EE, RES, competitive markets and cross-border trade through the uptake of new policies / laws/ codes / standards
 - improved energy planning through the use of reliable statistics

Communication enables the above.
