

Youth and the Covenant of Mayors

- 1. Tbilisi City Hall
 - 1.1 EYP Environment and energy committee is deeply concerned by:
 - 1.1.1 Having no adequate administrative structure yet;
 - 1.1.2 No NGO sector involved in drafting SEAP;
 - 1.1.3 Lack of popularization and public involvement in working on SEAP;
 - 1.1.4 **33** Signatories **failed** to submit their Sustainable Energy Action Plans on time-Is Tbilisi going to be 34th?
 - 1.1.5 No Public and private energy efficient transport policies and urban mobility (high need of more metros, cycle system in Tbilisi streets, trolley buses)

Youth and the Covenant of Mayors

- 2. European Commission
 - 2.1 “recognizing cities involved in the Covenant”
“implemented and funded the Covenant of Mayors Office”
is this sufficient for a successful implementation of duties and obligations such as submission and implementation of SEAP?
 - 2.2 No special funding for small projects for NGO sector?
 - 2.3 High need of experienced signatory city practice
popularization among cities having just signed or waiting to sign the Covenant.

Youth and the Covenant of Mayors

- 1. What is the importance of youth involvement in implementation/popularization of the Covenant of Mayors?
- A) “Intelligent energy behavior by citizens, consumers and businesses” would directly refer to:
Raising awareness of students, school pupils - whole families awareness raised.
- B) “Citizen and, in general, civil society participation”
While parents/elder people are at work all day long youth representatives are the ones who bring the information up to them.
- C) Involvement of youth representatives in energy-efficient activities-they are ready to implement future steps adjusted by you, 10-15 years later.

Youth and the Covenant of Mayors

- We are the **future** and we are ready for collaboration with you **today**
