What is INOGATE?

An EU-funded program for regional energy cooperation between the European Union and its Partner Countries in Eastern Europe, Caucasus and Central Asia.

11 INOGATE Partner Countries:
Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.
INOGATE’s Objectives

1. Convergence of energy markets on the basis of EU principles
2. Enhancing energy security
3. Supporting sustainable energy development
4. Attracting investment towards energy projects of common and regional interest
Who’s Who in INOGATE

Policy
- Energy Ministers

Steering
- European Commission
- INOGATE Country Coordinators

Implementation
- INOGATE Project Experts
- Working Group Members/TEGs

Beneficiaries & stakeholders
- Energy Regulators, Energy Agencies, ESCOs, Energy Companies / TSOs / DSOs / Utilities / associations (gas, electricity)
- Construction Authorities, Standardisation Bodies, Statistics Institutes, IFIs, Consumer Protection Groups, Civil Society, etc.
Types of assistance provided

- Technical advisory
- Capacity building
- Institution building
- Awareness raising
- Networking

Regional cooperation
Multi-country approach
The Ad Hoc Expert Facility (AHEF)

✓ The ITS "Ad Hoc Expert Facility" (AHEF) is one of the means for providing technical assistance to INOGATE Partner Countries

✓ targeted technical assistance for country specific issues

✓ To ensure maximum transparency on the AHEFs applications, an overview table is being published regularly on the INOGATE website both in English and Russian.
How AHEF works?

www.inogate.org

Eligible Applicant:

Application for TA under the AHEF

Selection

ITS Project Team:

Pool of Experts

AHEF Project ToR

Implementation

EC Approval:
Targeted energy sectors

- Electricity & Gas
- Renewable Energy
- Energy Efficiency
- Infrastructure
- Climate Change
- Statistics
Electricity and Gas

Harmonisation of electricity and gas standards and codes

Support to a framework improving energy cross border trade and cooperation

Sustainable and efficient energy transit infrastructures

EU best practices and advice in E & G primary and secondary legislation

Support to the monitoring of the Status Report (Baku initiative)
Technical Experts Groups (TEG) in PCs

...about 120 specialists in 11 PCs

**TEG 1: Energy Markets & Infrastructure**

- Team 1: Energy Policy
- Team 2: Tariffs & Regulation
- Team 3: Licensing, Markets and Monitoring
- Team 4: Cross-border trade Electricity
- Team 5: Cross-border trade Gas
- Team 6: Gas infrastructure

**TEG 2: Standardisation (Electricity & Gas)**

- Team 1: Standardisation policy, Technical regulations
- Team 2: Gas standards
- Team 3: Electricity standards
Overview of Activities (1)

Harmonisation of standardisation systems & legislation
- Regional seminar on new approach, 29-30 January 2013, Brussels
- Regional study on standardisation systems (11PCs)

Development of Road Maps & Action Plans
- Target 11 RMS and APs. Interest driven.
- Currently: AZ – 1st draft is ready
- The rest under preparation

Capacity building to NSBs
- Regional seminar, 8-11 July 2013, London & study visit to BSI head office and BSI laboratories in Loughborough
- Study tour to DVGW. Bonn, Essen, April 2014.
Overview of Activities (2)

Support to TCs

- Creation of TCs and capacity building
- Support in development and adoption of standards (translated G standards)
- Demand driven (AHEF)

Support to accreditation and certification

- Support to institutional structure & cooperation with EU institutions
- Study tour to London (July 2013)

EU best practice on E & G standards and codes

- Priority standards, support to adoption, implementation
- Demand driven (AHEF)
Regional Activities (example)

Capacity building of National Standardisation Bodies,
London, Loughborough, July 2013
Regional Seminar/study tour.

Work scope & Key Results:

- concept RM & AP presented
- key competences of NSBs discussed
- visit to BSI facilities & laboratories (E & G)
- agreement to go ahead with RM & APs for 6 PCs
- agreement to harmonise Priority standards, etc.
- agreement with EASC, transfer of 112 translated standards to PCs
