

The background of the slide is a blue-toned image of a globe with glowing, interconnected energy lines and nodes, suggesting a global network or energy infrastructure.

***ENERGY COMMUNITY ACTIVITIES
ON ENERGY STATISTICS IN THE
INOGATE PARTNER COUNTRIES***

INOGATE Energy Statistics Network Meeting

Facts and figures

Energy Community Members

European Union

The Parties to the Treaty are the European Union, on the one hand, and eight Contracting Parties, on the other hand.

Contracting Parties

Albania, Bosnia and Herzegovina, the Former Yugoslav Republic of Macedonia, Kosovo*, Montenegro, **Moldova**, Serbia and **Ukraine**.

From 1 July 2013 Croatia became Participant to EnC.

Observers

Armenia, Georgia, Norway and Turkey

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence.

*Energy Community
and
INOGATE*

Contracting Parties:

Moldova -2010

Ukraine - 2011

Georgia – will be 2013?

Observer:

Armenia

Energy Community Mission

Single market framework within a single regulatory space to

- increase trade
- attract investments
- enhance security of supply
- improve environmental situation
- increase competition at regional level

Energy Statistics

THE ENERGY COMMUNITY

LEGAL FRAMEWORK 2013
3rd EDITION

Adopted on 18 October 2012

DECISION of the Ministerial Council of Energy Community No D/2012/MC-EnC concerning implementation of the rules of energy statistics in the Energy Community

- ***Directive 2008/92/EC concerning a Community procedure to improve the transparency of gas and electricity prices charged to industrial end-users***
- ***Regulation (EC) No 1099/2008 on energy statistics***

Pending for adoption: Regulation (EU) No 147/2013 amending Regulation (EC) No 1099/2008 and repealing Regulation (EC) No 844/2010

Implementation

- Rules on energy statistics to be implemented in the Energy Community by 31 December 2013
- Adaptation of the specific provisions of the adopted rules is possible (Article 2 of the MC Decision D/2012/MC-EnC) if
- Energy Community Secretariat invited to coordinate common efforts
- Technical assistance to implementation
- Nomination of national coordinators

First stage in progress

Technical assistance contract signed on 5 August 2013

Time frame: August 2013 – April 2014

Service specification

- Country specific
- Result oriented
- Energy Community level

reconciled with national coordinators with the view to the programs of

- EUROSTAT
- INOGATE
- USAID etc

Focus of the assistance

A /Annual balances

- RES data
- consumption data

B/ Monthly statistics

C/ Price statistics

Improving annual data collections

Task 1

- **Assessment Report-** (for Moldova, Ukraine and Georgia **use assessment of INOGATE TS**)

Task 2

- **RES:** Assistance to develop tailor-made documents - Moldova
- **Improving data on energy consumption:** developing new or adapting existing practices in cooperation with responsible staff in NCA, recommendations of best practices to improve existing surveys, to create instructions and guidelines to organize and conduct the survey based on sampling, with examples of relevant documentations and recommendation of best practices and development of standard documents and procedures, particularly in respect of consumption of energy in households - **Moldova, Ukraine, Armenia and Georgia**
- **Time period: October 2013 - March 2014**

Task 3

- **Training** in the form of peer consulting under the governance of experienced expert from NCA in an EU Member States – **Moldova, Ukraine, Armenia and Georgia**
- **Study visits - Moldova, Ukraine, Armenia and Georgia**
- **Time period: October 2013 - March 2014**

Monthly statistics

Task 1

- Assessment of available monthly collections- **for Moldova, Ukraine and Georgia use assessment of INOGATE TS,**
- **Time period: by end September 2013✓**

Task 2

- Recommendation of the most cost-effective system for monthly statistics for each individual Beneficiary, developed in cooperation with Competent National Authorities - **Moldova**
- **Time period: September 2013 – March 2014**

Task 3

- Development of standard documents for monthly collections, reporting format for reporting units, guidelines and procedures including validation procedures, in cooperation with NCAs - **Moldova**
- **Time period: September – December 2013**

Task 4

- Hands-on training of key staff from designated NCA responsible for monthly statistics to collect, compile and validate monthly collection, preferably for Beneficiaries of the Task 2 or 3 on-site per Beneficiary or together for experts from Beneficiaries without language barriers (**ALL?**).
- **Time period: set in November 2013**

Price statistics

Task 1

- Analysis of existing legislative, institutional and administrative framework and available capacities in key institutions - for **Moldova, Ukraine and Georgia** use assessment of **INOGATE TS**
- **Time period: by end September 2013**✓

Task 2

- Presentation of best practices in EU MS in the form of study visits to NCA in EU MS with well functioning price reporting system, peer consulting provided by expert effectively involved in price statistics in EU MS, consultation and experience sharing among NCAs from Energy Community CP and / or workshops - **Moldova, Ukraine**
- **Time period: August - September 2013**↓

Task 3

- In cooperation with NA propose system for data collection, create or improve methodologies and questionnaires, procedural rules, if necessary, amendments of current regulations, cooperation agreements etc –**In case of Moldova, Ukraine, in coordination with INOGATE TS**
- **Time period: September – December 2013**

Task 4

- Prepare and guide staff in NCA to conduct a pilot survey applying proposed documents and procedures, to check and validate results and to finalize standard documents (as applicable, only for Beneficiaries that still do not have gas and electricity price statistics compiled in compliance with EUROSTAT methodology) - procedural rules including, if necessary, amendments of current regulations, cooperation agreements etc –**In case of Moldova, Ukraine, in coordination with INOGATE TS**
- **Time period: September - December 2013**

Coordination is a key word

INOGATE and Energy Community, relying on EUROSTAT as a common backup, coordinate plans and activities.

Financial and technical resources are limited .

We have to count on efficiency.

We have to improve cost effectiveness.

➔ *Institutions have to coordinate their efforts.*

The background is a dark blue globe with a grid of latitude and longitude lines. Overlaid on the globe are numerous glowing blue lines and circular patterns, representing energy or data connections. The lines are bright and have a slight glow, creating a sense of dynamic energy.

*Thank you
for your attention!*
