

Ukraine's achievements in introduction of the system of energy labelling of energy-related products in compliance with EU legislation.

Mr. Pavlo Ladetskyi

Obligations:

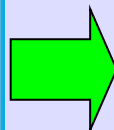

- Association Agreement between the EU and Ukraine
- Protocol on accession to the Treaty Establishing the Energy Community.

Planned for introduction

Introduction of the system of energy labelling of household appliances

Introduced

The next step will be the development of technical regulations on energy labelling by SAE:

- space heaters;
- water heaters;
- household washing machines, combined with dryers

Also over 2014-2015 the EU approved a number of new delegated regulations on energy labelling Ukraine is to implement, namely:

- Commission Delegated Regulation (EU) № 1254/2014 of 11 July 2014 with regard to energy labelling of residential **ventilation units**;
- Commission Delegated Regulation (EU) № 2015/1094 of 5 May 2015 with regard to energy labelling of **professional refrigerated storage cabinets**;
- Commission Delegated Regulation (EU) № 2015/1186 of 24 April 2015 with regard to energy labelling of **local space heaters**;
- Commission Delegated Regulation (EU) № 2015/1187 of 27 April 2015 with regard to energy labelling of **solid fuel boilers** and packages of a solid fuel boiler, supplementary heaters, temperature controls and solar devices.

THANK YOU!

Mr. Pavlo Ladetskyi
