subject: Baku INOGATE seminars

Dear Natia,

I would like to inform you that the 3 days seminars have been successfully completed in Baku, Azerbaijan. We had really fruitful seminars where the presentations and discussions on a wide range of topics on energy efficiency, audit and etc. served an integral part of the participants experience in this field of study. The seminars provided the participants with valuable knowledge and experience that would continue to stimulate further research and discussions during their working and academic career.

Again, I would like to express our gratitude to all INOGATE experts and you, and do hope to continue our fruitful cooperation in the future as well. If you have any questions, please always feel free to contact me. Attached you will find a photo from the event.

Best regards,

Shahmar Hajiyev
