

INOGATE Newsletter - March 2015

About this issue

Welcome to INOGATE's new electronic version of the newsletter! Our goal in introducing this e-newsletter is to make it easy to link through to our INOGATE website and find all the relevant on specific activities, reports, publications, etc. In January 2015, the [INOGATE Technical Secretariat project](#) was extended until 30 April 2016 and this issue of the newsletter spotlights the important country-specific and regional work that is planned for this period. New key experts are introduced in this extension period – all of whom are profiled in our new ['Meet the team'](#) section of the website!

IN THE SPOTLIGHT

EC and Partner Countries agree new INOGATE Regional and Country Work Plans for 2015-2016

Following the EC's consultations with Partner Countries that started at the INOGATE Annual Meeting in October 2014, the final INOGATE Regional and Country Work Plans have been accepted by the Partner Countries which now form the 'INOGATE Programme of Work 2015 -2016', effectively eliminating the need for any further submissions of Ad Hoc Expert Facility (AHEF) applications by...

Geospatial mapping for sustainable energy investments in Georgia begins

On 16 February 2015, the INOGATE Technical Secretariat (ITS) experts' team started a new cooperation with the Georgian Energy Development Fund (GEDF) for the development of the Sustainable Energy Geospatial Mapping Tool Platform "GeoExplorer" for solar, wind and small hydro power resources. This...[Read more](#)

EU-funded INOGATE Programme supports the adoption of oil and gas standards by Partner Countries

The lack of a level playing field for all countries to trade, invest and generally exchange commodities such as energy can very often be attributed to a lack of consistent standards, creating technical barriers to trade. The energy sector industries use a great number of standards covering the...[Read more](#)

INOGATE to facilitate regional electricity market between Azerbaijan, Georgia and Turkey

New EU technical assistance through the INOGATE Programme has been contracted to facilitate a dialogue for the future development of a regional electricity market in

southern Caucasus. The EU's INOGATE Technical Secretariat will engage Azerenerji JSC (Azerbaijan), Georgian State...[Read more](#)
