

SEMISE – SMALL-SCALE CAPACITY BUILDING PROJECT

PPF No. 41.UA

Project Title

Capacity Building for Lessors

Country (s) Ukraine

Timescale for implementation July – November 2011

Beneficiary(s)

Ukrainian Union of Lessors UUL, Kiev

Main and specific objectives

The **main** objective of this project was to improve climate in Ukraine for EE investments. The **specific** objectives of the project were:

- To promote typical industrial energy efficient equipment among leasing companies; and
- Contribute to the process of inclusion of the above equipment into leasing companies' proposal to industrial clients.

Results achieved

In the frame of this assignment the SEMISE specialists developed a special compendium presenting 12 typical energy efficiency equipment. The equipment was selected following main two criteria: equipment shall be advanced with high efficiency and shall be designed and constructed so it is convenient to be sold in form of leasing.

The compendium was delivered to the Union's office and should be distributed amongst the leasing companies in Ukraine.

At the same time the compendium was uploaded on the INOGATE web site and is available for the general public now.

Lessons learned

For further information about this project please contact the representative of the Beneficiary, Ms. Marina Yurievna Masich, Director of UUL Office, e-mail: uul@com.ua
