

## Feasibility studies for expanding the Boyarka Metrology Centre

### PRESS ANNOUNCE

06.12.2011

### BOYARKA METROLOGY CENTRE: INTERNATIONAL EXCELLENCE FOR DEVELOPMENT OF OIL AND GAS SECTOR

**Closing conference under EU funded project 'Feasibility studies for expanding the Boyarka Gas Metrology Centre to include oil, oil products, liquefied gas metrology, leakage (satellite) monitoring, optimization and control of hydrocarbons transit flows and to offer training facilities' will take place on 12 December 2011 in President Hotel, Kyiv.**

The project stakeholders, speakers and invited audience of the closing conference are representatives of Delegation of European Union to Ukraine, project Beneficiary – Ministry of Energy and Coal Industry of Ukraine, project Recipient - NJSC 'Naftogaz of Ukraine' and Boyarka Gas Metrology Centre, Contract holder – international consortium of companies lead by Tebodin B.V., invitees from oil and gas sector community.

Project with total value of EUR 1,439,335 was launched by EU in July 2009 in the framework of INOGATE programme, one of the first and most important initiatives within EU-Ukraine energy cooperation.

The key project objective is expanding existing Boyarka Metrology Centre capabilities to include oil, oil products, liquefied gas metrology and international training services. Complementary tasks of the project are optimization and control of hydrocarbons transit flows and leakage monitoring options.

Project provided basis for the positioning of Boyarka Metrology Centre as state-of-the-art competitive international organization with synergic operational activities under one roof. Geographical area for new services will cover Ukraine, Belarus, Moldova, other CIS countries and EU neighboring countries (Hungary, Poland, Romania and Slovakia). Client target groups will include oil and gas exploration, transportation, processing and retail operators.

The conference starts at 9:30 am and anticipates official opening by high representatives from EU Delegation, Ministry of Energy and Coal Industry of Ukraine, NJSC 'Naftogaz of Ukraine', Boyarka Metrology Centre and to be followed by information market / presentation sessions by key Consortium experts on the project components.
