## THE ENERGY COMMUNITY

LEGAL FRAMEWORK 2013  
3<sup>rd</sup> EDITION

### Main legislative acts:

**[Directive 2008/92/EC](#)** of the European Parliament and of the Council of 22 October 2008 concerning a Community procedure to improve the transparency of gas and electricity prices charged to industrial end-users.

**[Regulation \(EC\) No 1099/2008](#)** of the European Parliament and of the Council of 22 October 2008 on energy statistics

Since its adoption, this Regulation was amended 3 times:

- ✓ **[Commission Regulation \(EU\) No 844/2010](#)** of 20 September 2010 amending Regulation (EC) No 1099/2008 of the European Parliament and of the Council on energy statistics, as regards the establishment of a set of annual nuclear statistics and the adaptation of the methodological references according to NACE Rev. 2 (EnC did not adopt this revision separately, it was already integrated in the R 1099 /2008 when we adopted it)
- ✓ **[Commission Regulation \(EU\) No 147/2013](#)** of 13 February 2013 amending Regulation (EC) No 1099/2008 of the European Parliament and of the Council on energy statistics, as regards the implementation of updates for the monthly and annual energy statistics (adopted by MC in 2014)
- ✓ **[Commission Regulation \(EU\) No 431/2014](#)** of 24 April 2014 amending Regulation (EC) No 1099/2008 of the European Parliament and of the Council on energy statistics, as regards the implementation of annual statistics on energy consumption in households (adopted by MC in 2015)

Amendments refer only to Annexes

**Commission [Regulation \(EU\) No 431/2014](#) of 24 April 2014 amending Regulation (EC) No 1099/2008 of the European Parliament and of the Council on energy statistics, as regards the implementation of annual statistics on energy consumption in households**

*(adopted by Ministerial Council on 16 October 2015)*

**Amendments refer to Annex A and B of the Regulation**

*“(4) Regulation (EC) No 1099/2008 requires the Commission (Eurostat), in cooperation with the Member States, to generate detailed statistics on final energy consumption and to gradually include these into the statistical scope as defined in its annexes.*

*(5) The Commission has developed statistics on energy consumption in households and discussed feasibility, production costs, confidentiality and reporting burden with the Member States.*

*(6) Regulation (EC) No 1099/2008 should therefore be amended accordingly.”*

# What are the changes:

ISSN 2315-0815

**eurostat**  
Manuals and guidelines

**Manual for statistics on energy consumption  
in households**

## **Annex A - Clarification of terminology:**

### **2.3. Energy end-use specification**

**Other Sectors – Residential:** *To be declared are fuels consumed by all households including “households with employed persons” [NACE Divisions 97 and 98].*

#### **Household sector**

*Household means a person living alone or a group of people who live together in the same private dwelling and sharing expenditures including the joint provision of the essentials of living.*

*The household sector is a collective pool of all households in a country.*

# Breakdown of consumption in households

## New elements in Annex B of Regulation [Energy end-use specification]

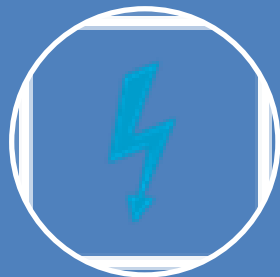

### Solid fossil fuels

- 4.2. Residential sector
- 4.2.1. Space heating
- 4.2.2. Space cooling
- 4.2.3. Water heating
- 4.2.4. Cooking
- 4.2.5. Other end uses

### Natural Gas

- 4.2. Residential sector
- 4.2.1. Space heating
- 4.2.2. Space cooling
- 4.2.3. Water heating
- 4.2.4. Cooking
- 4.2.5. Other end uses

### Electricity and heat

- 3. Residential sector
- 3.1 Space heating
- 3.2. Space cooling
- 3.3. Water heating
- 3.4. Cooking
- 3.5. Lighting and electrical appliances
- 3.6. Other end uses

### Oil and petroleum products

- 7.2 Residential sector
- 7.2.1. Space heating
- 7.2.2. Space cooling
- 7.2.3. Water heating
- 7.2.4. Cooking
- 7.2.5. Other end uses

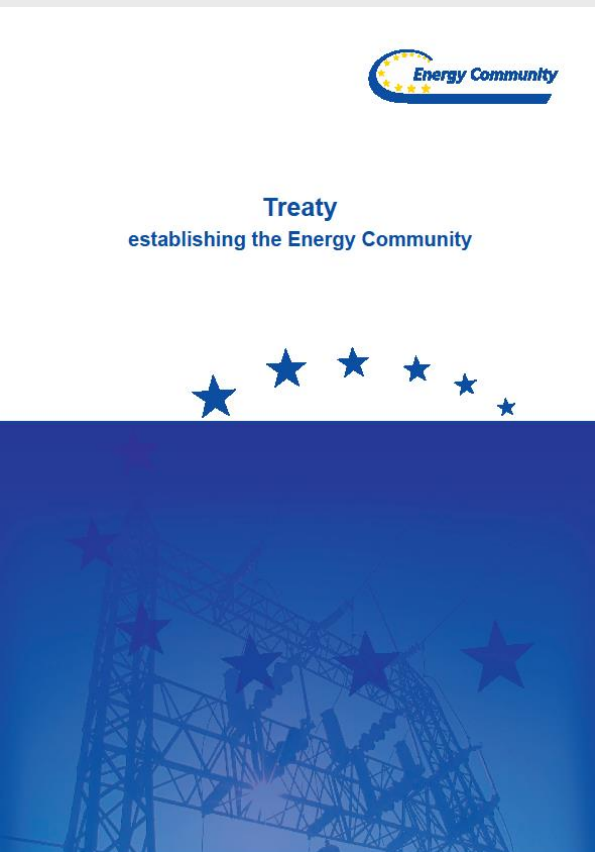

### Renewable energy and energy from waste

- 4.2. Residential sector
- 4.2.1. Space heating
- 4.2.2. Space cooling
- 4.2.3. Water heating
- 4.2.4. Cooking
- 4.2.5. Other end uses

- All Contracting Parties of the Energy Community are invited to submit their energy statistics data to EUROSTAT***
- Submission must follow the procedure of single entry point via eDamis***
- First submission will be 5 annual questionnaires for 2014, after that price statistics***
- EUROSTAT IS THE FIRST EU BODY INTEGRATING THE WHOLE ENERGY COMMUNITY UNDER EQUAL TERMS.***

## ***Priorities:***

- Complete data reporting systems (prices and monthly)***
- Incorporate NSIs of Ukraine and Moldova in EUROSTAT Energy Statistics Working Group working group***
- Keep up with the development of the rules and methodologies in EUROSTAT***

***Regulation 1099/2008 on energy statistics – to be implemented by the end of 2013***

***Regulation (EC) 431/2014 – must be implemented by end 2016, therefore consumption in household broken down in accordance with Regulation must be reported with annual questionnaires for reporting year 2015.***

***Status:***

Bosnia and Herzegovina and FYR Macedonia are expected to have data on consumption of household broken down in compliance by Regulation for AQ 2014.

Reporting burden is analysed by NSIs.

**DECISION No D/2012/02/MC-EnC of the Ministerial Council of 19 October 2012 concerning the implementation of the rules of energy statistics in the Energy Community (Regulation (EC) No 1099/2008 and Directive 2008/92/EC**

**Article 2:** *The European Commission is invited to propose in due time **relevant measures adapting Regulation (EC) No 1099/2008 and Directive 2008/28/EC** in line with the objective needs of the implementation process and the institutional framework of the Energy Community.*

**Derogation is permitted in accordance with Article 5(4) of the Regulation:**

*“At the duly justified request of a Member State, additional exemptions or derogations may be granted by the Commission in accordance with the regulatory procedure referred to in Article 11(3), for those parts of the national statistics for which the collection would lead to an excessive burden on respondents.”*

**Article 10:**

2. Additional exemptions or derogations (Article 5(4)) shall be granted in accordance with the regulatory procedure referred to in Article 11(3).
3. Consideration is to be given to the principle that additional costs and the reporting burden remain within reasonable limits.

## ***The Commission is invited to:***

- propose in due time relevant measures adapting Regulation (EC) No 1099/2008 and Directive 2008/92/EC in line with the objective needs of the implementation process and the institutional framework of the Energy Community in accordance with article 2 of the Decision NO 2012/02/MC-EnC of 19 October 2012 concerning the implementation of the rules of energy statistics in the Energy Community;
- by these measures define applicable procedure for granting the exemption and derogation from those aspects of the energy data collection that would lead to an excessive burden on respondents.

# The role of Secretariat

- Keep updated key staff on the developments in the energy statistics***
- Training sessions on the critical issues***
- Maintain communication with and among national experts for energy statistics***
- Provide information to the Energy Community Secretariat about status, challenges and achievements***

# Status of implementation of the acquis in statistics 2014

	Tranposition			Implementation			
	Regulation 1099/2008	Directive 2008/92	overall transposition	Regulation 1099/2008 annual	Regulation 1099/2008 monthly	Directive 2008/92	Overall implementation
Albania	1.00	0.88	0.95	1.00	0.67	0.50	0.73
Bosnia and Herzegovina	1.00	1.00	1.00	0.20	0.55	0.83	0.52

## **Activities in progress:**

### **Support to conduct consumption surveys**

**Bosnia and Herzegovina - households**

**FYR Macedonia - households**

**Montenegro – service**

### **Includes:**

- ✓ **Technical assistance provided by consultant (EIHP)**
- ✓ **Conducting surveys**
- ✓ **Publication of results**

**Deadline: December 2015**

A blue-outlined speech bubble pointing towards the smiley face icon.

**Results and/or  
experience will be  
presented at WS on  
14/12/2015 in Vienna**

**1. The official representatives of Moldova and Ukraine included in the Energy Statistics Working Group (ESWG) distribution list**

**- Ensure participation of all reporting countries in ESWG**

**- Provide funding**

**2. Cooperation of NSIs and mutual assistance**

**3. Support for major activities relevant for implementation of other obligation under the Treaty**

**3. Provision of technical assistance, when requested**

The background is a satellite-style image of the Earth at night, showing city lights. Overlaid on this are numerous glowing blue lines that represent energy transmission or data networks, crisscrossing the globe.

*Thank you  
for your attention!*
